Admission are given based on the ranks secured in Art & Design Common Entrance Test (ADCET)-2020

Test 1 - Paper 1

General Knowledge & Communication Skills

50 Multiple Choice Questions - 50 Marks - 60 min.

Test 2 - Paper 3 (Bachelor of Design)

Communication, Design Skills with Analytical Abilities

150 Marks - 120 min.

Interior Design is a multi-faceted discipline that focuses on conceptualizing and designing of interior spaces in such a way that they are conducive to high-quality and high productive life. The profession also considers safety and welfare protocol norms laid out by the regulating bodies. The career demands for an artistic bent of mind and good imagination for space planning, construction management and effective use of available materials and products. The job of an interior designer in an ever evolving and changing world is to create spaces which are plush, functional and adaptable in an residential or a workplace to motivate and encourage the user.

The School of Planning and Architecture offers a full-time four year course that enables the student to visualize, sketch, research, design and detail interior spaces of different typologies such as residential, commercial, recreational, hospitality, healthcare, cultural and recreational spaces. It is an interdisciplinary course which encompasses furniture design, product design, human psychology, environmental control, etc,. The course equips the student to design a 'biophilic' environment with importance to indoor environmental control.

The course instills a strong foundation of interdisciplinary skills with an emphasis on the latest materials available, construction techniques, accessory design and a variety of workshops like photography, textile design, furniture manufacturing, metal works, etc,.

COURSE STRUCTURE

The Curriculum is designed for a full-time 4 year course which is divided into 8 semesters. The first 6 semesters are devoted entirely towards study of basics of drawing and principles of interior design while the 7th semester the students have to submit a dissertation along with a project report. The 8th semester includes a full-time internship for a 20 week period in an interior designer's office.

COURSE MODULES

- Fundamentals of Design
- Drawing and Graphics
- Measured Drawings
- Materials and Application
- Introduction to Art and Design
- Basic Computer Application
- Environmental Studies
- Space Planning
- Creativity & Problem Solving
- Materials as Media for Creations
- Interior Design
- Introduction to Ergonomics
- Interior Construction Details
- History of Interior Design
- Furniture Design Workshop
- Intro to Architectural Engineering
- Interior Landscape & Signage
- Revitalization of Arts & Crafts
- Environmental Control
- Lifestyle Accessories Design
